

# PRIKON – Your Trust In Control Investigations

## Why Investigations?

In order to make profound decisions, it is crucial to know about the truth behind the curtain.

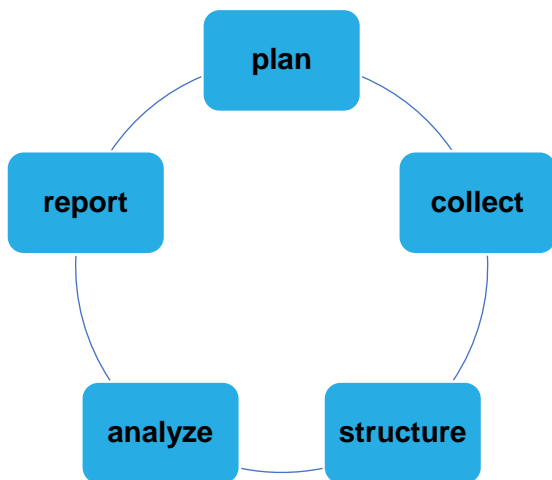

That applies for all business decisions, legal actions and even the private life planning.

Investigations enlighten the background that isn't always as crisp as it should be.

## Why PRIKON – Your Trust In Control ?

- **Certified by the German Chamber of Commerce**
- **Member in national and international Associations**
- **Use of up-to-date Tools and Tactics**

We work the full investigation-circle in every case to ensure the best quality:

## Databases:

*Info obtained from official databases assures that an investigation is built onto a reliable foundation. Yet, every info should be confirmed by a second source.*

## Online-Investigations:

*The world-wide-web is the 4. Dimension of the current everyday-life. Websites, social-media-platforms, services. Who doesn't use it won't make it the smart way.*

## Interviews:

*Humans carry information and insights that are only obtainable by direct contact. One of the most important sources, if practicable.*

## On-site Investigations + Surveillance:

*True conditions, relationships and actions are often only to be identified on the field. Experienced and professional field operators are the key to success.*

**All the above mentioned procedures, combined with the intellectual skills of planning, structuring, analyzing and reporting, make investigative work part of your success!**

PRIKON has its office in Germany.

Investigations are managed world-wide.
